Allowable Subject Matter

Claims 1-2, 4 and 6-16 are allowed.

The following is an examiner's statement of reasons for allowance: The examiner has reviewed the prior art in light of applicant's claimed invention and finds that the combined claims define over the prior art. The cited prior art does not disclose or suggest a process to form a semiconductor device inter alia the limitations "... depositing a WSiN layer in the contact hole and on the insulating layer using an atomic layer deposition process- where-in a single atomic laver of the WSiN layer is deposited by a continuous cycle comprising: injecting SiH₄ gas; purging any remaining SiH₄ gas using an inert gas; injecting NH₃ gas; purging any remaining NH₃ gas using inert gas; depositing a tungsten layer on Ge barrier metal using atomic layer deposition process.."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

This application is in condition for allowance except for the following formal matters:

Newly submitted claims 17-20 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: In the instant

case; the device can be fabricated with different method other than the method recited in group II or vice versa.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 17-20 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
